ABOUT THE INSTITUTION

Info Institute of Engineering (IIE) is a college with a difference. The college is committed to excellence in teaching, learning, research and to develop leaders in many disciplines who make a difference globally. The Institute ensures that the students are guided by enthusiastic, knowledgeable and committed faculty. IIE has excellent links with industry and professional bodies. The college has a sprawling campus area of 30 acres. IIE's attractive campus provides an environment that is stimulating and supportive, offering first-rate facilities for both students and staff.

VISION:

To strive to be one of the globally acclaimed institutions that excels in technical Education and Research and Serves industries and society by producing socially responsible self-motivated leaders with innovative thinking, ethical values and virtues.

MISSION:

- To plan and Implement effective teaching and Learning processes.
- To enhance the infrastructure and academic support systems continually.
- To build productive partnership between Industry and Institute.
- To inculcate values of professional and personal life through Co-Curricular and Extra- Curricular Activities.

ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering & Information Technology was established in the year 2007 and has produced many successful engineers and entrepreneurs. The department with a blend of experienced, dynamic and qualified faculty members with wide range of specializations is able to give quality and outcome based education to the students. The department is fully equipped with state of art. These activities provide a platform for the faculty members and students to share

their ideas and experience among industrialists, fellow researchers and academicians in the emerging areas of CSE and IT.

ABOUT THE WORKSHOP

Multimedia is the term used to represent combination of visual and audio materials gathered from various resources and then added into one single combination. A multimedia product can be sets of texts, graphic arts, sounds, animations and videos.

Precisely, term multimedia is used to refer visual and audio materials into a single common presentation which can be played in a computer including CD ROM or digital video, internet or web technology, streaming audio or video and data projection system etc.

This workshop helps the participants to understand the basic concepts in animation and its real time application in Multimedia Environment.

RESOURCE PERSON

Er.D.A. Christopher Dixon,
Modeler,
FPS Animations,
Coimbatore.

PARTICIPANTS

The expected participants for this workshop are faculty members and research scholars from Engineering Colleges, UG/PG students, Diploma candidates from Computer Science and Engineering & Information Technology.
